

## Technical Specifications

| Pump configuration  |   | Single variable pump   |                        |                        |                        |
|---|---|------------------------|------------------------|------------------------|------------------------|
| Frame size  | cm <sup>3</sup>   | 28                     | 32                     | 41                     | 51                     |
| Displacement  | cm <sup>3</sup><br>[in <sup>3</sup> ]                         | 28<br>[1.71]           | 31.8<br>[1.94]         | 40.9<br>[2.50]         | 51<br>[3.11]           |
| Weight  | kgf<br>[lbf]  | 34.5<br>[76]           | 34.5<br>[76]           | 42<br>[92]             | 42<br>[92]             |
| Mass moment of inertia  | kg·m <sup>2</sup><br>[lbf·ft <sup>2</sup> ]                   | 0.0018<br>[0.0013]     | 0.0019<br>[0.0013]     | 0.0036<br>[0.0027]     | 0.0038<br>[0.0028]     |
| Type of front mounting flange<br>(SAE flange size per SAE J744) | SAE B   |                        |                        |                        |                        |
| Port connections  | SAE-twin ports, radial  |                        |                        |                        |                        |
| System pressure regulation                                      | bar<br>[psi]  | 140-415<br>[2030-6017] | 140-345<br>[2030-5003] | 140-415<br>[2030-6017] | 140-345<br>[2030-5003] |
| Displacement limiters   | Option  |                        |                        |                        |                        |
| Input shaft options   | Splined, Round Straight Key                                   |                        |                        |                        |                        |
| Auxiliary mounting pad<br>(SAE pad per SAE J744)                | SAE A (9 tooth and 11 tooth)<br>SAE B (13 tooth and 15 tooth) |                        |                        |                        |                        |
| Control options   | MDC, FNR, NFPH, NFPE, HC-EDC, EDC                             |                        |                        |                        |                        |
| Filtration configuration  | Suction or charge pressure filtration                         |                        |                        |                        |                        |
| Loop flushing   | Option  |                        |                        |                        |                        |

## System Parameters

### Case pressure

|                               |              |            |
|-------------------------------|--------------|------------|
| Rated pressure                | bar<br>[psi] | 3 [44]     |
| Maximum pressure (cold start) | bar<br>[psi] | 10.5 [150] |

### Pressure Limits

| Frame size                 | cm <sup>3</sup> | 28         | 32         | 41         | 51         |
|----------------------------|-----------------|------------|------------|------------|------------|
| Maximum working pressure * | bar<br>[psi]    | 400 [5800] | 350 [5075] | 400 [5800] | 350 [5075] |
| Maximum pressure           | bar<br>[psi]    | 450 [6525] | 400 [5800] | 450 [6525] | 400 [5800] |

\* Operation above maximum working pressure is permissible with Danfoss application approval.

### Inlet Pressure

|                               |                                  |          |
|-------------------------------|----------------------------------|----------|
| Continue pressure             | bar (absolute)<br>[in Hg vacuum] | 0.8 [6]  |
| Minimum pressure (cold start) | bar (absolute)<br>[in Hg vacuum] | 0.2 [24] |

### Speed Limits

| Frame size                            | cm <sup>3</sup>            | 28   | 32   | 41   | 51   |
|---------------------------------------|----------------------------|------|------|------|------|
| Minimum speed                         | min <sup>-1</sup><br>(rpm) | 500  | 500  | 500  | 500  |
| Rated speed at maximum displacement   | min <sup>-1</sup><br>(rpm) | 3400 | 3000 | 3200 | 2900 |
| Maximum speed at maximum displacement | min <sup>-1</sup><br>(rpm) | 3750 | 3400 | 3450 | 3400 |
